

# Violence Transformed 2021

## Standing Up

A Virtual Exhibit: April 1 - April 30, 2021

Since 2014, Cambridge College and Violence Transformed have collaborated to sponsor an annual exhibit linked to a socially relevant theme – a theme that helps us document the transformative power of art and the ability of art, artists, and artmaking to address compelling issues of our time. This year's theme is **STANDING UP**. The artists featured in the exhibit have created works that address the many ways in which people in this country and around the world are “standing up” for human rights, civil rights, health equity and social justice for all.
